

M Haidar Hanif

Educator and Engineer

me@mhaidarhanif.com
+62 8 1993 101010
Worldwide, Indonesia, Malaysia, Singapore

I am an Educator, Engineer, Designer, Innovator, and Consultant.

Founder of an education venture that supports distant learning and remote work named Azobu (<https://azobu.com>). Currently teaching online private training as well. Furthermore, developing a highly-skilled professionals community named High Skill Masters (<https://highskillmasters.com>). Previously, I was the CEO/CTO of coding school named Impact Byte (<https://impactbyte.com/about>).

My specialties in the last 10 years are often focused on developing, integrating, and teaching software technologies. Especially full-stack web application development, design, and architecture around various open-source toolsets, JavaScript (ES) along with Node.js, Express/Adonis, REST/GraphQL/WebSocket API, jQuery/Zepto, React/Vue/Angular, Redux, MongoDB, MySQL/MariaDB, PostgreSQL, Redis, Jest/Mocha/Chai, Agile/Lean Software Development with Scrum/Kanban, system administration with Linux/POSIX tooling, Git source control on GitHub/GitLab/Bitbucket, UI/UX design with Figma, also other programming languages such as Python, Ruby, Java, Golang, and others.

EXPERIENCE

Private Trainer

Azobu (azobu.com)

January 2020 - Present, Worldwide

Establishing a private training education for aspiring web developers and existing software engineers. An online and remote solution for learning with mentorship.

Founder

Azobu (azobu.com)

August 2019 - Present, Worldwide

Establishing online learning platform with complete experience to help people to be a job-ready professional, raise their skills and salary, become a freelancer or remote worker, craft a valuable content creation, or even launch a scalable business.

Founder

Impact Byte (impactbyte.com)

July 2017 - July 2019, Indonesia

Founding a professional education with programs like fast track coding bootcamp and workshop, that can fundamentally transform beginners into professionals in just 8 weeks of learning. Also providing private training for startups and corporates.

Senior Software Engineering Instructor

Hacktiv8 (hacktiv8.com)

May 2016 - February 2017, Indonesia

Teaching web development and software engineering.

Software Engineering Instructor

Agnium (agnium.co.id)

July 2015 - February 2016, Indonesia

Teaching web development and software engineering.

Software Engineer

AMPlified (amp.asia)

July 2015 - February 2016, Indonesia

Building web applications and software.

EDUCATION

Full Stack Web Development

Udacity (udacity.com)

2017, Worldwide

Full Stack Web Development

freeCodeCamp (freecodecamp.org)

2017, Worldwide

Master of Management Information System

Gunadarma University (gunadarma.ac.id)

2014 - 2015, Indonesia

Bachelor of Software Engineering

Gunadarma University (gunadarma.ac.id)

2011 - 2014, Indonesia

Industry Knowledge

Web Design

Web Development

User Interface

User Experience

Software Development

Software Engineering

Skill, Tools, and Technologies

HTML, CSS, JavaScript, Node.js,

React.js, Redux, Express.js,

REST API, GraphQL API,

GCP, AWS, Figma, InVision,

Google Analytics, Cloudflare,

Git, GitHub, GitLab

Languages

English (Professional)

Indonesian (Native)

Malaysian (Beginner)
